EXPERIENCE

Competitive Programming Practice

Apr 2026 – Present

CodeChef / LeetCode Problem Solving

Remote

- Practicing data structures and algorithms through competitive programming problems
- Solved problems involving arrays, recursion, strings, and dynamic programming
- Strengthened analytical thinking and algorithm design skills

Spring Boot Learning Project

2026 – Present

Backend Development Practice

Remote

- Developing RESTful APIs using Java and Spring Boot framework
- Implemented CRUD operations with MySQL database integration
- Managed project dependencies and build lifecycle using Maven

PROJECTS

Online platform for professional skill certification tracking

2025

- Developed a web platform that helps students for professional skill certification tracking
- Implemented Online platform for professional skill certification tracking
- Built frontend components using React and integrated MongoDB for authentication and data storage

Online platform for assignment submission and grading system for colleges

2026 – Present

- Built a full-stack donation management system using Spring Boot and MySQL
- Implemented user registration, authentication, and secure donation tracking features
- Developed REST APIs to manage donor information and donation records
- Designed relational database schema for efficient and secure data management

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** (In Progress)

EDUCATION

KL UNIVERSITY

2024 – 2028

Bachelor of Technology in Computer Science

India

- CGPA: 8.3 / 10
- Relevant Coursework: Data Structures, Algorithms, DBMS, Operating Systems, Object-Oriented Programming

SASI NEW GEN JUNIOR COLLEGE VELIVENNU

2022 – 2024

Intermediate (MPC)

India

- Score: 923 / 1000

SASI E.M HIGH SCHOOL VELIVENNU

2022

SSC Class X

India

- Score: 563 / 600

SKILLS

Languages: Java, JavaScript, HTML/CSS, SQL

Frameworks: Spring Boot, React

Databases: MySQL, MongoDB

Tools: Git, GitHub, Maven, VS Code, Eclipse, Spring Tool Suite
